Design and construction of the hotel - heavy system task. You should carefully identify tasks to be performed by the hotel where some guests to serve. Economics and market demand from hoteliers small hotel which will definitely be uploaded to 70-80% while providing a rapid return on investment. Everyone knows that the individual design of buildings costs a lot of money so answering market demand, I propose more than 1,000 of the author's projects of hotels and minigostinitsa for any taste for any requirements and opportunities. My directory is as microcontinuity up to 6 rooms up to 20 rooms of the traditional hotel 20-70 room and large projects of hotels of 200 rooms or more. Many hotel projects you can change under casino restaurants and recreation complexes. In the catalogue of projects of hotels with different number of storeys one storey two -, three -, and high-rise floors 10-15. There are also projects of hotels of the type of townhouses with the option of adding the standard modular parts of the building to be able to decrease or increase hotel room capacity according to the size of the construction site. It is also possible to adjust the height of the project. Architect D. V. Warriors - more than 1000 copyright
